

The MARKETS NOW

- o Is the Alibaba Float a contrary indicator for Wall Street's bull trend?
- o How relevant are Scotland's referendum, the Fed's ending of QE, Putins territorial aggressions and Middle East conflicts?
- o What are the risks versus rewards for various stock markets over the medium to longer term?
- o Does the Scottish referendum result imply a weakened Europe?
- o Does deflationary Europe threaten inflationary America?
- o Is fixed income investing realistic in an era of QE?

" I just wanted to add my thanks for a most interesting and intellectually-stimulating evening seminar at the East India Club. You, Iain and Bruce all dazzled in a most inspirational manner and the impact of your joint observations was a powerful one, being delivered in a live arena like that. I have to say that there was also an impressive degree of brain power amidst the punters as well (!), which led to interesting conversational opportunities across the assembled group (worth attending for alone). So well done to you all for a very rewarding evening "

(RS, 18 March 2014.)

DAVID FULLER

David Fuller is a global strategist and Chairman of Fuller, Treacy Money, previously known as Fuller Money. He is a career analyst, behaviourist and private investor, writing, conducting seminars and lecturing on markets for over 45 years.
